Great River

The Great River Road follows the Mississippi River from Minnesota to the Gulf of Mexico. We think the bluff lands of Minnesota, Wisconsin, and Iowa are the most scenic: filled with millions of years of geologic history, centuries of human habitation, and now one of world's newest wine producing regions.

Great Memories

Spend a day or two and you may never want to go home. Share with your friends the great wines you tasted, historic sites you visited, and interesting people you met. Bring the whole family and create some great memories.

Great Wineries

All 11 wineries on the Great River Road Wine Trail use northern grown grapes and fruit, and we each make distinctive award winning wines. Each winery has its own story to tell. So plan to taste their unique wines.
